Second Community Workshop scheduled for I-80/SR 65 Interchange Improvements Project

Placer County Transportation Planning Agency (PCTPA) will host a second community workshop for the I-80/SR 65 interchange improvements project on Wednesday, January 25 at 9 a.m. at the Placer County Board of Supervisor Chambers (The Domes), 175 Fulweiler Street in Auburn. The project team will present a progress report on development of the concept alternatives and get public input during PCTPA's regularly scheduled board meeting.

The project proposes interchange improvements to reduce traffic congestion, improve traffic operations and enhance safety. The project team is currently analyzing seven concepts; the concepts are being compared and refined based on the project's objectives along with other screening factors such as cost and construction phasing.

Representatives from PCTPA, Caltrans and the project consultant team will be available to provide an overview of the project, schedule and will answer questions and discuss ideas in an informal format.

Several information stations providing maps, aerial photographs and other displays will be available, along with fact sheets and other project materials.

PCTPA is the regional transportation planning agency for Placer County excluding the Lake Tahoe basin. PCTPA represents Placer County and six incorporated cities located within the political boundary of Placer County.

For more information contact PCTPA at 530-823-4030.
